

SINCE 1984

Architecture for the institutions that *build India*

Architecture, Engineering, Master Planning, Landscape, Interiors and Project Management under one roof, from the first feasibility study to the day a building opens. Most of our work is for central and state Governments, public-sector companies and institutions of national importance.

1984

In practice for over four decades

300+

Architects, Engineers and staff

6

Offices across India

21 + 2

States and union territories

₹42,000+

Crore of combined project value

30+

Medical Colleges designed or upgraded

WHAT WE DO

One practice, every discipline

Architecture

Engineering

Master Planning

Landscape

Interiors

Project Management

WHERE WE WORK

Six sectors of public life

01 Healthcare & medical education

About 95 projects, from District Hospitals to the 2,200-bed King George Hospital, Visakhapatnam

02 Education & research

IITs, NITs, Central and State Universities, schools and research institutes

03 Security & training campuses

Campuses for the CAPF, CRPF, CISF, BSF and PAC

04 Justice

Integrated Court Complexes, High Court buildings and District Jails

05 Government, culture & mobility

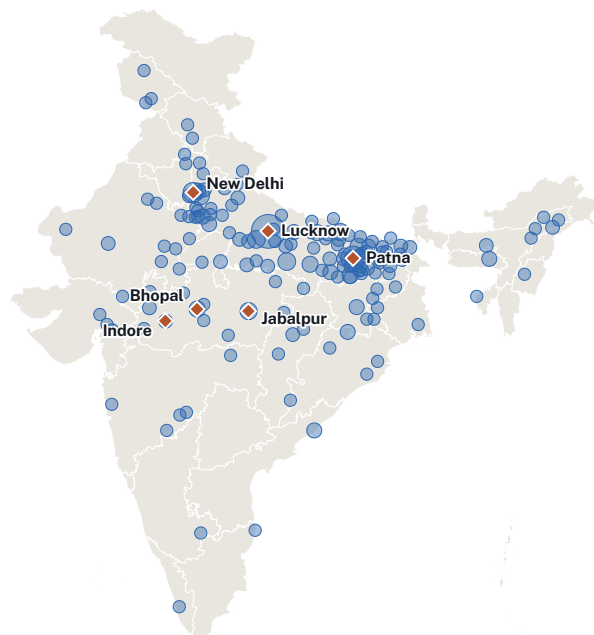

Headquarters, museums, auditoriums, stations and transport hubs

06 Housing & townships

Affordable housing and townships for public-sector companies

OUR FOOTPRINT

Built across the country

● Project locations, sized by number ◆ Offices

“Public buildings are paid for by public money and run for decades by people who did not design them. Our job is to make them need less.”
